Student Financial Aid

Introduction

Financial aid provided to students can be broken into two general categories: need-based aid, which is provided to students who are determined to be financially unable to afford the cost of attending a post-secondary institution; and non-need-based aid, which is provided either without regard to the student's financial need, such as in the case of certain federal loan programs, or on some other basis, such as academic merit. In 2020-21, the most recent year for which data is available, resident undergraduate students attending Wisconsin public and private, nonprofit postsecondary institutions at least half-time received financial aid awards totaling approximately \$1.3 billion. Of that amount, \$757.6 million, or 58.1%, was awarded through need-based aid programs.

There are four primary sources of student financial aid: (1) the federal government; (2) state programs; (3) higher education institutions; and (4) other private and community-based organizations. Of the need-based aid provided to resident undergraduate students in 2020-21, \$489.3 million was awarded through federal programs (64.6%); \$115.3 million was awarded through institutional programs (15.2%); \$115.5 million was awarded through state grant and loan programs administered by the Higher Educational Aids Board (15.2%); \$14.7 million was awarded through other state programs (1.9%); and \$22.8 million was provided by private sources (3%).

The federal government determines the amount of need-based financial aid a student is eligible for and funds the largest grant, loan, and work-study programs that make up the financial aid "package" that a student receives. In determining a student's

financial need, the resources of the student and his or her family are compared to the estimated cost of attending the chosen institution. The cost of attendance includes tuition and fees, room and board, transportation, books and supplies, and miscellaneous and personal expenses. The student's financial need is the cost of attendance that the current methodology assumes cannot be covered by student or family resources. "Unmet need" is the student's financial need less any financial aid provided. This "unmet need" can be met by additional parental contributions beyond what is assumed, student earnings apart from work-study aid, the assumption of additional non-need-based loans, or reductions in costs by the student.

Table 1 shows cost of attendance, financial need, need-based financial aid, and unmet need for Wisconsin resident undergraduate students for the most recent five years for which data is available. Between 2016-17 and 2020-21, average need-based aid per student increased by \$165 while the average cost of attendance for students receiving aid increased by approximately \$1,680. Because increases in costs were greater than increases in aid, unmet student need increased.

Table 1: Wisconsin Undergraduate Need-Based Financial Aid (\$ in Millions)

	2016-17	2017-18	2018-19	2019-20	2020-21

*Includes need-based Wisconsin covenant grants.

This paper presents an overview of state and federal financial aid programs. The first section discusses the methodology used to determine student financial need. The second section briefly describes the various sources of financial aid. The third section provides a more detailed description of each financial aid program including college savings programs and tax incentives. The fourth section discusses the process used to distribute financial aid. The final section provides interstate comparisons.

Needs Analysis

Financial aid is awarded based upon a systematic evaluation of a student's financial need, using the guiding principle that students and their families are primarily responsible for paying for postsecondary education. Congress has established a needs analysis system, referred to as the "federal methodology," which determines how much students and their families are expected to contribute towards the cost of their education. To be eligible for federal financial aid, students and their parents are required to fill out the Free Application for Federal Student Aid (FAFSA). The federal Department of Education determines the amount that the student and his or her parents are expected to contribute to the cost of the student's education, known as the expected family contribution or EFC, based on information provided on the FAFSA. In calculating the EFC, the Department of Education takes into account family income, assets, number of children and other dependents in the household, number of family members enrolled in higher education, liabilities, and unusual financial circumstances. Students' earnings and savings are also considered.

EFC is determined based on the amount of income and assets that are deemed "discretionary." In general, EFC increases with the family's discretionary income. Students with the greatest

financial need generally have EFCs of \$0. Although costs vary from school to school, the EFC remains the same.

The student's financial need is the difference between the total cost of attending an institution and the amount the student and his or her family is expected to contribute, which is the EFC. The cost of postsecondary education varies greatly depending on individual student choices. First, costs will vary depending on the institution the student chooses to attend. In Wisconsin, the total cost of education, including tuition and fees, room and board, transportation, books and supplies, and miscellaneous and personal expenses, ranged from an average of \$12,730 at the tribal colleges to \$44,063 at the private, nonprofit colleges and universities in 2020-21. The Wisconsin Technical Colleges and the University of Wisconsin System institutions fell in between with average costs of \$16,116 and \$19,708, respectively. Additional choices made by the student, such as whether to live on campus or at home, will also affect the total cost of education.

Table 2 shows a sample student budget for a full-time resident undergraduate student as prepared by the financial aid office at UW-Milwaukee. This sample budget shows tuition and fees relative to other student costs including room and board, transportation, and books and supplies.

Table 2: Dependent Student Base Budget Estimates -- 2022-23 Academic Year (9 Months)

	Living With Parent	Living Away From Home
Tuition and Fees	\$9,650	\$9,650
Books/Supplies	800	800
Room	0	6,706
Board	4,190	4,190
Transportation	1,434	1,434
Personal/Misc.	<u>2,000</u>	<u>2,000</u>
Total	\$18,074	\$24,780

Once a student's financial need is determined, the college where the student is enrolled or the

college or colleges where the student has applied attempts to meet this need through an offer of a financial aid package. The financial aid package can be a combination of one or more types of assistance including grants, scholarships, loans, and employment, depending upon a student's financial need and eligibility for programs.

In most cases, to be eligible to receive aid from the general need-based programs discussed in this paper, a student must:

- Demonstrate financial need.
- Have a high school diploma, a general educational development (GED) certificate, or have completed a high school education in a home setting.
- Be enrolled in an eligible degree or certificate program.
- Be a U.S. citizen or an eligible noncitizen.
- Have a social security number.
- Make satisfactory academic progress in a degree or certificate-granting program as defined by the institution attended.

Some of the programs described in this paper such as the federal Direct Loan and Direct PLUS Loan programs and the state-funded Wisconsin Grant program also require the student to be enrolled at least half-time, which is usually defined as at least twelve credits per year. This is not a requirement to receive federal aid under the Pell Grant, Supplemental Educational Opportunity Grant, or Work-Study programs. For students attending less than full-time, the cost of education is proportionately reduced, which in turn decreases a student's financial need and the amount of financial aid for which the student is eligible.

Another determination made when a student applies for financial aid is the student's dependency status. Dependency status is based on

whether the student is considered a dependent of his or her parents or is considered financially independent. If a student is a dependent, the student must report his or her parents' income and other financial information on the FAFSA in addition to the student's own. This determination is necessary because most student aid programs are based on the assumption that parents have the primary responsibility for paying for their children's education, whether they choose to or not. According to federal guidelines, students who have access to parental support should not receive financial aid at the expense of students who do not. A student is considered independent for financial aid purposes if he or she is one or more of the following:

- At least 23 or 24 years of age depending on the student's birthdate.
- Married.
- A graduate or professional student.
- Someone with a dependent other than a spouse who receives more than half of his or her support from the student.
- Serving on active duty in the U.S. Armed Forces.
- A veteran.
- Both of the student's parents are deceased, the student has been in foster care, or the student has been a ward or dependent of the court at any time since the age of 13.
- An emancipated minor or in a legal guardianship.
- Has been determined to be an unaccompanied youth who is homeless or self-supporting and at risk of homelessness at any time since July 1, 2021 (for the 2022-23 academic year).

Sources of Financial Aid

Financial aid is provided by a number of sources:

Federal Government. In 2020-21, 65% of the need-based financial aid to resident undergraduate students was provided by the federal government. This aid included \$263.0 million in grants, \$212.5 million in loans, and \$13.7 million in work study. Table 3 provides expenditure levels for need-based financial aid programs funded through the U.S. Department of Education. These include grants, such as the Pell and Supplemental Educational Opportunity Grant (SEOG); federal work study; and loans, such as subsidized Direct Stafford loans. Table 3 also shows expenditures for the Bureau of Indian Affairs grant program which is administered by individual tribes. Since 2013-14, total need-based federal financial aid for Wisconsin undergraduate students has decreased by 41.2% from \$832.6 million in that year to \$489.2 million in 2020-21. Decreased Pell Grants and Stafford Loans account for most of this decline.

In addition, the federal government provides non-need-based financial aid, primarily in the form of loans. In 2020-21, resident undergraduate students received a total of \$255.5 million in non-need-based federal financial aid. Of this amount,

65% was provided in the form of Direct Unsubsidized Stafford loans and 15% was provided in the form of Direct PLUS loans made to parents. Due to limits on the amount of loans a student can receive through the need-based Direct Subsidized loan program, students may receive loans through both that program and the non-need-based Direct Unsubsidized loan program.

Higher Educational Aids Board (HEAB). The Higher Educational Aids Board is the primary state agency responsible for the management and oversight of the state's student financial aid system. As such, HEAB administers most state-funded student financial aid programs and the Minnesota-Wisconsin tuition reciprocity program. The Board is an independent policy-making body composed of 11 members: the State Superintendent of Public Instruction; one member from each of the UW Board of Regents, the Wisconsin Technical College System (WTCS) Board, and a Board of Trustees of an independent college or university in this state; three financial aid administrators and three undergraduate students, including one each from an UW institution, Wisconsin technical college, and a private, nonprofit college or university in this state; and one member of the general public. Except for the State Superintendent, all Board members are appointed by the Governor. Student members of HEAB serve two-year terms while nonstudent members serve staggered, three-year terms. HEAB has a staff of 10.0 full-time

*Some Wisconsin Covenant grants are not awarded on the basis of need. The amounts shown exclude these non-need-based grants.

**Does not include federal Leveraging Educational Assistance Partnership (LEAP) Supplemental (SLEAP) monies.

equivalent employees including an Executive Secretary who is appointed by the Governor.

HEAB awards most state-funded need-based grants based on a student's EFC as calculated by the federal Department of Education. Table 4 shows a history of funding for HEAB-administered need-based financial aid programs. Non-need-based grants awarded through the Wisconsin covenant scholars grant program are excluded from the amounts shown in the table.

In general, HEAB-administered aid programs are supported with state, general purpose revenue (GPR) dollars. Exceptions include the Indian student assistance grant program and the Wisconsin Grant for tribal college students, both of which are funded with tribal gaming revenues. In addition, the Wisconsin Grant for UW students was fully funded with program revenue (PR) transferred from the UW System in 2013-14.

In addition to the need-based programs shown in Table 4, HEAB administers the academic excellence scholarship (AES) program and the

technical excellence scholarship program, both of which provide merit-based scholarships, and three non-need-based loan programs. Table 5 shows 2021-22 program expenditures and the number of students receiving aid for all HEAB financial aid programs. The total expenditure amount shown in Table 5 differs from that shown in Table 4 for 2021-22 due to the inclusion of the non-need-based programs.

Table 5: HEAB -- 2021-22 Program Expenditures

	Number of Awards	Total Expended	Average Award
Wisconsin Grant			
UW Students	28,573	\$57,771,286	\$2,022

Hearing and Visually Impaired Grant	33	52,505	1,591
TOTAL	66,959	\$112,972,923	\$1,687

University of Wisconsin System and Other State Agencies. The UW System currently administers several state-funded financial aid programs and one state-funded loan repayment program. The three largest programs administered by the UW System are the Lawton minority undergraduate retention grant, the advanced opportunity program, and the tuition assistance grant. In addition, the Department of Military Affairs, the Department of Public Instruction, the Department of Veterans Affairs, and the Division of Vocational Rehabilitation Services in the Department of Workforce Development each administer financial aid programs for select student groups.

Institutional Aid. Individual institutions provide need-based grants, scholarships, and need- and non-need-based loans and employment to enrolled students. Institutional financial aid programs are funded with moneys allocated by the institution and are separate from state and federal programs. In 2020-21, Wisconsin's independent colleges and universities provided \$242.5 million in institutional aid to their Wisconsin resident undergraduate students, including \$65.8 million in need-based grants, \$163.3 million in scholarships, \$9 million in tuition waiver or exchange benefits, \$2.9 million in non-need-based employment, and \$1.5 million in other forms of aid. Institutional aid is a particularly important source of financial aid for resident undergraduates attending private independent colleges and universities. At those institutions, institutional financial aid accounts for 51% of all financial aid for resident undergraduate students compared to 12.8% at UW institutions and 1.7% at the technical colleges.

UW institutions provided a total of \$73.6 million in institutional aid to resident undergraduate students in 2020-21. This amount included \$48.1 million in need-based grants, \$22.9 million in scholarships, \$1.9 million in matching AES moneys, and \$0.7 million in non-need-based loans.

The technical colleges provided \$4.4 million in

institutional aid to their students in 2020-21 including \$2.4 million in scholarships, \$0.9 million in non-need-based employment, \$0.5 million in non-need matching funds, \$0.4 million in need-based grants, and \$0.2 million in other types of assistance.

Private Sources. Students may receive financial aid through private sources such as community organizations, church groups, alumni associations, and private banks. Due to the manner in which many of these funds are distributed, it is difficult to estimate the total amount of privately-funded financial aid awards.

The privately-funded Fund for Wisconsin Scholars (FWS) provides need-based grants to students who have graduated from Wisconsin public high schools and are enrolled in UW institutions or Wisconsin technical colleges. Students enrolled at two-year institutions are eligible to receive annual grants of up to \$1,800 while students enrolled in four-year institutions may receive annual grants of up to \$4,000. Grants totaling \$9.6 million were provided to 2,974 UW students and \$11,700 was provided to 11 technical college students in 2020-21. These grants are awarded through the financial aid office of the institution that the student attends. FWS is endowed by a \$167 million gift made by John and Tashia Morgridge in December, 2007.

Financial Aid Programs

Financial aid may be provided in a number of forms:

Grants are direct forms of financial aid that are usually provided on the basis of financial need and do not have to be repaid. In 2020-21, state, federal, institutional, and private grant programs accounted for 70.0% of need-based financial assistance to resident undergraduates.

Loans are financial aid that, in most cases, must be repaid. Loans made through state and federal programs generally offer lower interest rates than are available on the private market. Some loans can have their principal forgiven or repaid if the recipient adheres to certain conditions, such as becoming a teacher in an inner city school or a physician in a medically underserved area. In 2020-21 student loan programs accounted for 28.1% of need-based and 47.4% of non-need-based financial assistance for resident undergraduates. Loans through federal programs accounted for 99.8% of all need-based loans and 79.0% of all non-need-based loans.

Scholarships are grants that are awarded on some basis other than financial need such as academic merit; athletic, musical, or other talents; certain achievements; or status as a member of a particular group such as being from a certain city, belonging to a certain ethnic group, or being the member of a certain religious affiliation.

Remissions are awarded to students under certain conditions. Students who receive a remission are not charged some portion of tuition and the institution granting the remission forgoes that revenue.

Reciprocity agreements enable a student from one state to attend a public institution in another state without having to pay nonresident tuition. A reciprocity agreement between Minnesota and Wisconsin covers all public institutions in both states. In addition, individual technical colleges have reciprocity agreements with institutions located in Michigan, Illinois, and Iowa and UW-Marquette has a reciprocity agreement with two community colleges located in Michigan. Additional information on reciprocity programs is provided in the Legislative Fiscal Bureau's informational paper entitled, "Education and Income Tax Reciprocity Agreements."

Different financial aid programs accommodate a range of different policy objectives. Need-based

grant programs are generally used to increase access and to help equalize participation in higher education across income levels. Merit-based aid, such as the academic excellence scholarship program in Wisconsin, encourages better high school performance and talent retention. Loans, primarily offered by the federal government, help students and families bridge the financial gap between present and future earnings. Other programs, such as nursing and teacher loans, target specific professions or student populations for grants or loans.

The following section provides descriptions of financial aid programs available to Wisconsin students. Unless otherwise indicated, program data is for Wisconsin resident undergraduate students attending college in this state.

Grant Programs

1. Pell Grant (Federal). The Pell grant program is the largest source of need-based grant aid for resident undergraduate students. In 2020-21, 46% of all need-based grant aid reported by HEAB was provided through the Pell grant program. In that year, 63,317 Wisconsin students received Pell grants totaling \$241.3 million with an average award of \$3,812.

Students who receive Pell grants tend to be from the neediest households. In 2017-18, the latest year for which income data is available, 68.1% of all Pell grant recipients came from families with annual incomes of less than \$30,000; 99.9% came from families with incomes of less than \$60,000. The Pell grant is intended to be the base upon which the student's financial aid package is built because, in general, students eligible for Pell grants are eligible for other forms of aid. In recent years, the Pell grant program has been administered like an entitlement program in that all eligible students have received the full amount of the grant as determined by their cost of attendance, expected family contribution (EFC), and enrollment status.

In 2022-23, undergraduate students enrolled full-time with EFCs of less than \$6,206 are eligible to receive grants ranging from \$700 to \$6,895 annually. For students enrolled less than full-time, grants are reduced proportionately. To maintain eligibility for Pell grants, students must demonstrate satisfactory academic progress as defined by the institution attended.

Table 6 shows the number of resident students who received Pell grants over the last 15 years and the average amount of those awards. Over that period of time, the number of Pell grant recipients increased by 75% from 2006-07 to a peak of 103,088 in 2011-12 and then decreased by 38.5% from 2011-12 to 2020-21. The average grant increased by 64.6% over the time period.

2. Wisconsin Grant (HEAB). The Wisconsin Grant program provides need-based grants to resident undergraduate students enrolled at least half-time at UW institutions, Wisconsin technical colleges, private, nonprofit colleges and universities, and tribal colleges located in this state. Students are eligible to receive grants for up to 10 semesters.

In 2021-22, 59,412 students received Wisconsin Grants totaling \$103.5 million across all four

Table 6: Pell Grants

	Number of Recipients	Total Grants	Average Award
2006-07	58,957	\$136,557,843	\$2,316

sectors. Table 7 shows the number of students who received Wisconsin Grants, excluding tribal college students, the total amount of those grants, and the average grant by sector for 2012-13 through 2021-22.

By law, the minimum Wisconsin Grant that can be awarded is \$250 while the maximum grant awarded to UW, technical college, and tribal college students may not exceed \$3,150. There is no

Table 7: Wisconsin Grants*

	UW System			Wisconsin Technical Colleges			Private, Nonprofit Colleges			Total
	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award

*Excludes Wisconsin Grant -- Tribal Colleges

**Wisconsin Grants were known as Wisconsin Higher Education Grants and Wisconsin Tuition Grants prior to the 2013-14 fiscal year.

statutory maximum for Wisconsin Grants awarded to private, nonprofit college and university students. Actual minimum and maximum grants vary by sector and are approved annually by the HEAB Board. Table 8 shows the minimum and maximum Wisconsin Grants by sector for 2022-23.

Table 8: Minimum and Maximum Wisconsin Grant Awards by Sector, 2022-23

	Minimum	Maximum
Private, Nonprofit Colleges	\$500	\$3,800
UW System	854	3,150
Technical Colleges	500	1,752
Tribal Colleges	250	2,197

Individual Wisconsin Grant amounts are calculated using formulas which are approved annually by HEAB. Statutes require that these formulas account for expected parental and student contributions and are consistent with nationally approved needs analysis methodology. HEAB approves a total of five formulas, one each for UW students, technical college students, and tribal college students, and two for private, nonprofit college and university students. Statutes require HEAB to use different formulas for dependent and independent students attending private, nonprofit colleges and universities. Under these formulas, dependent students receive larger grants than independent students. The formulas for Wisconsin Grants for private, nonprofit college and university students also include a calculation of the amount by which the student's tuition exceeds UW-Madison tuition. Applicants who attend institutions that charge higher tuition are eligible for larger awards. Under the provisions of 2017 Act 59, if HEAB determines during a fiscal year that any formula used to award Wisconsin Grants would need to be modified during the fiscal year in order to expend the entire amount appropriated for those grants, the Board must submit the modified formula to the Joint Committee on Finance for approval through a 14-day review process.

The Wisconsin Grant program is funded through four appropriations. There are three

separate GPR appropriations for: UW students (\$61,894,100 annually); private nonprofit college and university students (\$28,504,600 annually); and technical college students (\$22,971,700 annually). There is a fourth program revenue (PR) appropriation funded with tribal gaming revenues for tribal college students (\$481,800 annually).

In administering the program, HEAB commits funds to more students than it can provide grants to with the amount of funding appropriated. The amount by which HEAB overawards Wisconsin Grant funding is based on the percentage of students expected to decline the grant. Initial awards to private, nonprofit college and university students are limited by statute to 122% of the amount appropriated.

3. Supplemental Educational Opportunity Grant (Federal). The Supplemental Educational Opportunity Grant (SEOG) program provides need-based grants of up to \$4,000 per year to undergraduate students with the lowest EFCs, with priority given to Pell Grant recipients. SEOG is a campus-based program and funds are allocated to participating institutions based on the amount received by the institution in 1999. Additional funds, when available, are allocated based on the need of the students enrolled in the institution. The SEOG program is administered by financial aid officers at each institution and awards are based on student financial need and the availability of funds. In 2020-21, SEOG awards of \$17.6 million were provided to 26,362 Wisconsin students, for an average of \$666 per grant.

4. Ben R. Lawton Minority Undergraduate Grant (UW System). The Lawton Grant program provides grants of up to \$4,000 annually to resident minority undergraduate students enrolled at UW institutions. To be eligible for a Lawton grant, a student must be enrolled full-time, have completed at least 24 credits, and have financial need. Since new freshmen are not eligible for Lawton grants, this is a retention, rather than a recruitment, program. Students may receive grants

through the Lawton program for up to four academic years. Lawton grants are provided as "last dollar" grants, which means that they are awarded after all other grant aid for which the student is eligible has been determined. "Minority undergraduate" student is defined by statute as an undergraduate student who is African American, Native American, Hispanic, or from Cambodia, Laos, or Vietnam and admitted to the U.S. after December 31, 1975.

In 2021-22, 2,724 students received a total of \$6.5 million through the Lawton program averaging \$2,384 per grant. Funding for the Lawton program is allocated annually by the Board of Regents from the UW System's largest GPR appropriation.

5. Tuition Assistance Grants (UW System). This program provides need-based grants to resident undergraduate students. The funding for the program was initially provided to the UW System under 2009 Act 28 for tuition grants to resident undergraduate students whose family incomes were less than \$60,000 and who did not receive Wisconsin Grants. Eligibility for grants was limited by statute to students who were enrolled in UW System institutions in 2010-11 and maintained continuous enrollment. As those students left UW institutions, the UW System used any remaining funds to provide grants to students who were on the Wisconsin Grant waitlist and then to provide need-based grants to resident undergraduate students through the tuition assistance grant program. Tuition assistance grant funding is currently allocated annually to institutions based on the proportion of Pell Grants for Wisconsin resident students with EFCs below the threshold used for eligibility for Wisconsin Grants at each institution. In 2021-22, 6,775 students received tuition assistance grants totaling \$6.3 million with an average grant of \$936. Funding for this program is allocated annually by the Board of Regents from the UW System's largest GPR appropriation.

6. Bucky's Tuition Promise Program. Beginning in fall, 2018, the Bucky's Tuition Promise program at UW-Madison provides scholarships and grants to cover tuition and segregated fees for students whose household adjusted gross income is \$60,000 or less. Incoming freshmen are eligible for eight consecutive semesters (four years) and transfer students are eligible for four consecutive semesters (two years). Eligible students are required to file a Federal Application for Federal Student Aid (FAFSA) by UW-Madison's December 1 priority enrollment deadline. Aid is provided after other student aid, such as grants and scholarships are applied, resulting in a student's net cost for tuition and fees of zero. From 2018-19 through 2021-22, 2,650 students received aid through this program.

7. Division of Vocational Rehabilitation Training Grants (Department of Workforce Development). Individuals that have a physical or mental impairment that results in a substantial impediment to employment may be eligible for training grants awarded through the Division of Vocational Rehabilitation (DVR) in the Department of Workforce Development. Students are eligible for grants of up to \$5,000 for full-time study or \$160 per credit for part-time study. The actual amount of training grant depends on the student's unmet need after other sources of financial aid have been applied. DVR training grants are funded with a combination of federal funds provided through the vocational rehabilitation grant and state matching funds. In federal fiscal year 2022, DVR awarded training grants totaling \$1.5 million to 208 UW students, 362 technical college students, and 171 students enrolled in other colleges. More information regarding eligibility for the DVR training grant program and other services offered by DVR can be found in the Legislative Fiscal Bureau's informational paper entitled, "Vocational Rehabilitation."

8. Bureau of Indian Affairs (BIA) Grant (Federal). Need-based grants are available to students who are members of a federally recognized

tribe, or at least one-quarter descendent of a member of a federally recognized tribe, and who meet eligibility criteria established by the tribal affiliates. The appropriate tribal office selects eligible students and determines the amount of each award. In 2020-21, 666 students received BIA grants totaling \$2.4 million with an average award of \$3,659. Of these grant recipients, 192 were enrolled in Wisconsin technical colleges, 259 were enrolled in UW institutions, 176 were enrolled in tribal colleges, and 39 were enrolled in private colleges.

9. National Guard Tuition Grants (Military Affairs). Wisconsin National Guard members are eligible to receive reimbursement grants equal to 100% of tuition for up to eight semesters of full-time study or 120 credits of part-time study. Reimbursement may be obtained by members who were enrolled at any accredited institution of higher education in Wisconsin or an out-of-state institution with a reciprocity agreement.

Eligibility is limited to Wisconsin National Guard members who: (a) are not officers; (b) do not hold a bachelor's degree or equivalent; (c) meet eligibility criteria established by the Department of Military Affairs (DMA); (d) are not absent without leave from more than nine monthly training sessions; and (e) are not delinquent in child support or maintenance payments and do not owe past support, medical expenses or birth expenses, unless the member provides DMA an approved payment agreement. Additionally, an eligible member must achieve a minimum grade point average of 2.0 for the semester and be an actively drilling guard member in good standing. Under 2017 Act 59, an exemption was provided from nonresident tuition for students who meet certain criteria, such as being a member of the Wisconsin National Guard for at least six months prior to enrollment.

Members seeking reimbursement must apply for the grant within 90 days after the completion date of the course. The Department is required to

make grant payments no later than 30 days after receiving the certification of a guard member's eligibility. No member may receive a grant under this program in any semester in which the person also receives a grant under VetEd, the veterans tuition reimbursement program.

In 2021-22, grants totaling \$5.4 million GPR were awarded to 1,141 National Guard members. Note that many National Guard members received two awards in 2021-22, one award for the fall semester and one award for the spring semester. The average annual amount awarded to a National Guard member in 2021-22 was \$4,700.

10. Talent Incentive Grant Program (HEAB). This program (known as "TIP") provides grants to the most needy and educationally disadvantaged students. Freshmen grant recipients are selected by the staff of the Wisconsin Educational Opportunity Program (WEOP) in the Department of Public Instruction and institutional financial aid officers. Only students who receive TIP awards as freshmen are eligible to receive awards as upperclassmen. Students may receive TIP awards for up to 10 semesters within the first six years after the initial grant was awarded. Freshmen TIP awards are made by financial aid officers and WEOP counselors; HEAB determines the awards for those who continue to enroll as upperclassmen. Unlike other financial aid programs, TIP funding is guaranteed for continuing upperclassmen, thus obligating HEAB to four years of support once an initial award is made. Total TIP expenditures in 2021-22 were \$3.15 million GPR.

Students may be awarded both a maximum TIP award as well as a maximum Wisconsin Grant award. Freshmen may receive TIP awards of \$600 to \$1,800. The amount of grants awarded to upperclassmen varies from year to year depending on the number of eligible students. In 2021-22, continuing students received grants of \$1,400. Table 9 shows TIP expenditure levels for the UW

Table 9: Talent Incentive Grant Program*

	UW System			Wisconsin Tech. Colleges			Private Colleges		
	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award
2012-13	1,833	\$2,772,061	\$1,512	715	\$931,462	\$1,303	692	\$1,070,272	\$1,547

*Includes both state funds and federal state student incentive grant monies. Excludes grants to students enrolled in tribal colleges.

System, WTCS, and private college sectors from 2012-13 through 2021-22.

11. Study Abroad Grants (UW System).

This program provides need-based grants of up to \$2,000 to resident undergraduate students participating in study abroad programs. In 2021-22, grants totaling \$341,699 were provided to 245 students through this GPR-funded program. Funding for these grants is allocated annually by the Board of Regents from the UW System's largest GPR appropriation.

12. Minority Undergraduate Retention Grant (MURG) (HEAB). Similar to the Lawton program, the MURG program provides need-based grants to minority resident undergraduate students enrolled at least half-time in Wisconsin technical colleges, tribal colleges, or private, non-profit postsecondary institutions in the state. Like the Lawton program, this is a retention, rather than a recruitment, program and the same definition of "minority" is used for both programs. Sophomores, juniors, and seniors are eligible for grants of up to \$2,500 a year for up to eight semesters. HEAB allocates half of all funds to the technical colleges and half to private institutions and tribal colleges.

In 2021-22, \$431,673 was awarded to 548 technical college students with an average award of \$788. A total of 244 students attending private colleges or tribal colleges received \$386,822 with an average award of \$1,585.

13. Indian Student Assistance Grant (HEAB).

These funds are awarded to residents who are at least one-quarter Native American or are recognized as a member of a tribe by the appropriate tribal government. Full- and part-time undergraduate and graduate students who attend accredited institutions of higher education in this state are eligible for financial assistance. Grants are based on financial need and may be received for a total of five years. The program is funded by tribal gaming revenues. In 2021-22, 479 students received grants totaling \$426,797. Of these students, 167 enrolled at UW institutions, 162 enrolled at Wisconsin technical colleges, 120 enrolled at Wisconsin tribal colleges, and 30 enrolled in private, non-profit institutions. The average grant was \$891 in that year.

14. Veteran's Tuition and Fee Reimbursement Grants (Veterans Affairs).

This program provides reimbursement of up to 100% of the cost of an eligible veteran's undergraduate tuition and fees or high school tuition or program costs, less

any other grants, scholarships, or remissions received, up to the amount of resident undergraduate tuition at UW-Madison. The reimbursement percentage depends upon the qualifying veteran's length of service. A separate program, described later in this paper, provides tuition remissions to eligible veterans attending UW System and Wisconsin Technical College System institutions.

While the program formerly awarded tuition reimbursement payments totaling over \$1 million annually, utilization of the program has steadily decreased over the past decade, likely due to changes in federal veteran's benefits and the creation of new state veteran's education benefits. In 2021-22, DVA made tuition reimbursement payments under the program to four veterans, totaling \$11,000.

15. Teacher Education Assistance for College and Higher Education (TEACH) Grant (Federal). The TEACH grant program provides grants of up to \$4,000 per year to students who intend to teach in a high-needs field in a public or private elementary or secondary school that serves low-income students. If grant recipients do not fulfill the obligations of the program, the total amount of TEACH grants received is converted into Direct Unsubsidized Loans. In 2021-22, 72 resident and nonresident UW students received TEACH grants totaling \$222,600, and 50 resident and nonresident students enrolled in private, non-profit colleges and universities located in this state received TEACH grants totaling \$149,704.

16. Emergency Grants (UW System and Wisconsin Technical College System). Created by 2015 Act 282, the program provides grants to students enrolled in the UW System branch campuses (former UW Colleges) and the Wisconsin technical colleges beginning in the 2016-17 academic year. To be eligible for an emergency grant, a student must have an EFC of less than \$5,000. Grants awarded through this program may be used to fund expenses resulting from a financial emergency, which is defined as

an unplanned event causing an unanticipated expense that would cause an eligible student to not complete the current academic term if a grant were not available. Eligible expenses include medical and vehicle repair costs. Students may receive up to two grants per year. Total grants provided to an individual student may not exceed \$500 in any academic year. For the UW System, in 2021-22, \$42,700 was awarded through 97 grants to 94 individual students. For WTCS, \$320,000 was awarded through 722 grants to 681 students in 2021-22.

17. Nelson Institute for Environmental Studies (UW System). Created by 2009 Act 28, this program provides need-based grants to students who are members of underrepresented groups and who are enrolled in a program leading to a certificate or a baccalaureate degree from the Nelson Institute for Environmental Studies at UW-Madison. For the 2021-22 award year, 29 students received grants totaling \$98,600. The program is funded with income and interest transferred from the normal school fund.

18. Visual or Hearing Impaired Grant (HEAB). Under this program, Wisconsin residents who have a severe or profound hearing or visual impairment and are enrolled as undergraduates at an in-state or eligible out-of-state public or private, nonprofit postsecondary institution are eligible for financial assistance. Eligible out-of-state institutions include Rochester Institute of Technology (NY), Gallaudet College (DC), St. Paul Technical and Vocational Institute (MN), St. Mary's Junior College (MN), California State University-Northridge National Center on Deafness, and Northern Illinois University. All awards are based on financial need. Students are eligible for a maximum grant of \$1,800 a year for up to 10 semesters in addition to any grants received under the Wisconsin Grant program. Additional costs such as special equipment and materials are included along with expenses covered in the standard student budget.

In 2021-22, 33 hearing or visually impaired students received a total of \$52,505 under this program with awards averaging \$1,591. Most award recipients attended a UW System institution (19), while seven students attended a Wisconsin technical college and seven students attended private, non-profit institutions located in Wisconsin.

19. Advanced Opportunity Program (UW System). The AOP program provides grants to minority and disadvantaged graduate students enrolled at UW institutions. Both resident and nonresident students are eligible for AOP; however, statutes require that preference be given to resident students. There are no statutory limits on the grant amount or number of eligible semesters. Selection criteria vary by campus but are primarily based on financial need and academic performance. In 2021-22, 575 students received AOP awards totaling \$4,979,100, and 70% of grants were provided to students belonging to underrepresented minority groups.

The UW treats AOP as a fellowship, rather than a grant program, thus making AOP recipients eligible for fringe benefits, such as health insurance. Because most AOP recipients also receive tuition remissions, the total value of an AOP award may be considerably higher than the amount of the grant, particularly for nonresidents. Funding for AOP is allocated annually by the Board of Regents from the UW System's largest GPR appropriation.

Federal Loan Programs

1. Direct Subsidized Loans (Federal). The Direct Subsidized Loan program is a federal loan program that provides low-interest loans to undergraduate students who are enrolled at least half-time and who have demonstrated financial need. Students may borrow up to \$3,500 in the first year, \$4,500 in the second year, and \$5,500 in subsequent years up to a maximum of \$23,000. Borrowers are only eligible for Direct Subsidized Loans

for a period of time equal to 150% of the length of the borrower's program. Under this rule, students pursuing four-year bachelor's degrees would be eligible for Direct Subsidized Loans for a period of up to six years while students pursuing a two-year associate's degree would be eligible for these loans for a period of up to three years.

Direct Subsidized loans are subject to a fixed interest rate, which, after the payment suspension pause ends, is set at 4.99% for loans disbursed from July 1, 2022, to June 30, 2023. In addition to these interest rates, borrowers are charged a loan fee equal to 1.06% of the amount of the loan for loans disbursed on or after Oct. 1, 2022, and before October 1, 2023. This fee is deducted from each disbursement. Borrowers begin repayment six months after leaving school or dropping below half-time. Under the subsidized loan program, the government pays the interest on the loan while the student is enrolled at least half-time, during the six months before repayment begins, and during deferment. In 2020-21, 61,753 students received direct subsidized loans averaging \$3,415, for a total value of \$210.9 million.

Direct Subsidized Loan Program borrowers may choose to repay their loans through one of several repayment plans, including: (1) the standard plan, which offers fixed payments over up to ten years; (2) the graduated plan, which offers increasing payments over 10 years; (3) the extended plan, which offers fixed or graduated payments over up to 25 years; (4) the pay as you earn plan, which allows the borrower to pay 10% of discretionary income for up to 20 years; (5) the revised pay as you earn plan, which allows the borrower to pay 10% of discretionary income for up to 25 years; (6) the income-based plan, which allows the borrower to pay 10 or 15% of discretionary income for up to 25 years; and (7) the income-contingent plan, which allows the borrower to pay 20% of discretionary income for up to 25 years. Only borrowers with more than \$30,000 in outstanding direct loans are eligible for the extended payment plan. Borrowers must have a high level

of debt relative to income to be eligible for the income-based and pay as you earn plans. Under the income-based, pay as you earn, revised pay as you earn, and income-contingent plans, the balance of the loan is forgiven at the end of the repayment period.

Loan repayments may be deferred up to three years in the event of economic hardship or if the borrower is unable to find full-time employment. In addition, loan repayments may be deferred for active military personnel during a war, military operation, or national emergency and for up to 13 months following qualifying active military service for National Guard members and other reservists who were activated while enrolled or within six months of being enrolled at least half-time. Loan payments may also be deferred while a student participates in an approved graduate fellowship program or rehabilitation training program in the case of disability.

Loans may be discharged if the school in which the student enrolls closes before the student completes his or her program or in the event of the death or total and permanent disability of the borrower. Loan forgiveness is offered to certain teachers and public service employees. Teachers who have worked for five consecutive years in a low-income school may have up to \$5,000 of their loans forgiven or \$17,500 if the teacher is a secondary mathematics, secondary science, or special education teacher. In addition, public service employees may have the balance of their loans forgiven after 120 on-time monthly payments.

On August 24, 2022, President Biden announced that the U.S. Department of Education would provide student debt cancellation to borrowers with loans held by the Department. Borrowers with annual income during the pandemic of under \$125,000, for individuals, or under \$250,000, for married couples or heads of households, would be eligible for up to \$10,000 in debt cancellation, and up to \$20,000 for borrowers who received a Pell Grant. At the time of writing, the

debt relief program is under an injunction by two federal appeals courts which prevents the program from going into effect.

2. Direct Unsubsidized Loans (Federal).

The Direct Unsubsidized Loan program provides low-interest loans to undergraduate and graduate students who are enrolled at least half-time in a degree or certificate program. Unlike the Direct Subsidized Loan program, students do not need to demonstrate financial need to be eligible for Direct Unsubsidized Loans. The amount a student may borrow is determined by the institution he or she attends but may not exceed maximum loan amounts established by federal law. For dependent undergraduate students, these maximums are \$5,500 in the first year, \$6,500 in the second year, and \$7,500 in subsequent years, up to a cumulative maximum of \$31,000. Independent undergraduate students may borrow up to \$9,500 in the first year, \$10,500 in the second year, and \$12,500 in subsequent years, up to a cumulative maximum of \$57,500. Amounts borrowed through the Direct Subsidized Loan program are counted against these limits. Graduate and professional students may borrow up to \$20,500 per year. In total, graduate and professional students, other than those in certain health profession programs, may borrow up to a maximum of \$138,500. Any amount borrowed by a graduate or professional student while an undergraduate is counted against these limits. In 2020-21, 51,751 undergraduate students received Direct Unsubsidized Loans averaging \$3,209, for a total value of \$166 million.

Like Direct Subsidized Loans, Direct Unsubsidized loans are subject to a fixed interest rate, which is set at 4.99% for undergraduate students and 6.54% for graduate and professional students for loans disbursed from July 1, 2022, to June 30, 2023. Borrowers are also charged a loan fee equal to 1.06% of the loan. Borrowers begin repayment six months after leaving school or dropping below half-time. Unlike Direct Subsidized loans, the borrower is responsible for any interest that accrues while the student is enrolled, before repayment

begins, and while the loan is in deferment.

Direct Unsubsidized Loan borrowers may select from the same seven repayment plans available to borrowers under the Direct Subsidized Loan program. In addition, Direct Unsubsidized loans may be deferred, discharged, or forgiven under the same conditions as Direct Subsidized student loans.

3. Direct PLUS Loans for Parents (Federal). Through this non-need-based loan program, the U.S. Department of Education makes loans to parents of dependent undergraduate students who are enrolled at least half-time. Only parents who do not have an adverse credit history are eligible for PLUS loans. PLUS loans can only help finance educational costs and the amount of the loan cannot exceed the difference between the cost of attendance and all other financial aid.

PLUS loans are subject to a fixed rate which is set at 7.54% for loans disbursed from July 1, 2022, to June 30, 2023. The loans also carry a 4.23% fee which is deducted from each disbursement. Parents may defer payments while the student is enrolled at least half-time and for up to six months after the student ceases to be enrolled at least half-time; however, interest accrues during these periods and may be added to the principal of the loan.

Parents may choose to repay PLUS loans through one of three repayment plans: (1) the standard plan, which offers fixed payments over up to 10 years; (2) the graduated plan, which offers increasing payments over 10 years; and (3) the extended plan, which offers fixed or graduated payments over up to 25 years. Loan repayments may be deferred under the same conditions as Direct Subsidized and Direct Unsubsidized Loans. The loan may be cancelled if the school in which the student enrolls closes before the student completes his or her program, the borrower dies or becomes totally and permanently disabled, or the student for whom the parent borrowed dies.

4. Direct PLUS Loans for Graduate and Professional Degree Students (Federal). This program provides loans to graduate and professional degree students who are enrolled at least half time. As with PLUS loans for parents, only students who do not have an adverse credit history are eligible for these loans. The terms and conditions of this program are the same as for the Direct PLUS loans for parents program except that: (1) loan repayments are automatically deferred while the student is enrolled at least half-time and six months after the student ceases to be enrolled full-time; (2) borrowers may opt to repay their loan under the income-based, the pay as you earn, the revised pay as you earn, and the income-contingent repayment plans; and (3) public service employees may have the balance of their Direct PLUS loans forgiven after 120 on-time monthly payments.

5. Consolidation Loan (Federal). This program allows borrowers to replace Direct, PLUS, and other federal loans with one loan having a lower monthly payment than the total monthly payments on the original loans. PLUS loans made to parents cannot be transferred to the student through consolidation; however, parents may be able to consolidate PLUS loans. Consolidation loans give the borrower up to 30 years to repay loans which may reduce monthly payments but increase total costs. Interest rates on consolidation loans are fixed and equal to the weighted average of the interest rates on the original loans, rounded up to the nearest 1/8%. Several different repayment plans are available to borrowers with consolidated loans. Borrowers who consolidate their loans may no longer be eligible for the benefits offered by the original loan programs which may include interest rate discounts, principal rebates, and loan cancellation.

In response to the COVID pandemic, the Secretary of the federal Department of Education, Congress, and the President have provided relief to borrowers. For loans held by the federal Department of Education, from March 20, 2020, until

June 30, 2023, the Department has suspended loan payments, stopped collections, and waived interest.

State Loan Programs

1. Nursing Student Loan (HEAB). The nursing loan program provides need-based loans to Wisconsin residents who are enrolled at least half-time at an eligible in-state institution that prepares them to be licensed as registered (RN) or licensed practical (LPN) nurses. The maximum award per year is \$3,000 with an overall maximum of \$15,000. To be eligible for the program, students must agree to be employed as a licensed nurse in this state. Loans are forgiven at a rate of 25% for each of the first two years that the recipient is employed full-time as a nurse or nurse educator in Wisconsin. Forgiveness may be prorated for individuals working less than full-time. The balance remaining after forgiveness must be repaid at an interest rate of 5% annually. If the student does not practice nursing in Wisconsin or otherwise meet the eligibility criteria, the loan must be repaid at an interest rate of 5%. For fiscal year 2021-22 138 students received loans totaling \$372,900. Most recipients attended either a private, non-profit college or university (66) or a technical college (63). An additional nine recipients attended UW institutions. Funding for the program is \$445,500 GPR annually.

2. Teacher Loan Program (HEAB). Created by 2015 Act 55, the teacher loan program is intended to provide loans of up to \$10,000 annually to resident students enrolled in programs leading to a teacher's license in a teacher shortage area identified for this state by the U.S. Department of Education. To be eligible, a student must be enrolled at least half-time as a sophomore, junior, or senior at an institution of higher education and have a grade point average of at least a 3.0 on a 4.0-scale or the equivalent. Loan recipients may have 25% of the loan forgiven for each year that the recipient teaches full-time at a public or private school in the city of Milwaukee or in a school

district in a rural county. To receive loan forgiveness, loan recipients must teach in the high demand area that they studied and receive a rating of proficient or distinguished on the educator effectiveness system or the equivalent in a school that does not use the educator effectiveness system. Students may receive loans of up to \$30,000 through the program. Loan recipients who do not qualify for loan forgiveness must repay their loans at an interest rate of 5%. In 2021-22, HEAB made 25 loans through the teacher loan program totaling \$219,400. Funding for the program is \$272,200 GPR annually.

3. Minority Teacher Loan (HEAB). Under 2015 Act 55, the minority teacher loan program is intended to provide loans of up to \$10,000 annually to minority resident students enrolled in programs leading to a teacher's license in a teacher shortage area identified for this state by the U.S. Department of Education. To be eligible, a student must be enrolled at least half-time as a sophomore, junior, or senior at an institution of higher education and have a grade point average of at least a 3.0 on a 4.0-scale or the equivalent.

Loan recipients may have 25% of the loan forgiven for each year that the recipient teaches full-time at a public or private school located in a school district in Wisconsin in which minority students constitute at least 40% of the membership. To receive loan forgiveness, loan recipients must teach in the high demand area that they studied and receive a rating of proficient or distinguished on the educator effectiveness system or the equivalent in a school that does not use the educator effectiveness system. Students may receive loans of up to \$30,000 through the program. Loan recipients who do not qualify for loan forgiveness must repay their loans at an interest rate of 5%.

In 2021-22, 12 students received loans totaling \$110,000 through the minority teacher loan program, with an average award of \$9,167. All of the participants were enrolled at Concordia University. Funding for the program is \$259,500 GPR

annually.

4. School Leadership Loan Program. Under 2017 Act 59, a continuing appropriation was created under HEAB for the school leadership loan program with \$500,000 GPR in 2017-18 for the program. To be eligible for a loan through the program, a student must meet all of the following criteria: (a) be enrolled in a school leadership program at a UW institution that permits students to earn degrees in less time than a traditional school leadership program and includes a required mentorship or apprenticeship component; (b) be nominated by a superintendent of a school district; and (c) be selected by the Board of HEAB in a competitive application process. Loan recipients could have 25% of the loan forgiven for each year that the recipient satisfies the following requirements: (a) is employed in a school leadership position in an elementary or secondary school in this state; and (b) received a rating of proficient or distinguished on the educator effectiveness system or the equivalent in a school that does not use the educator effectiveness system. Loan recipients who do not qualify for loan forgiveness are required to repay their loans at an interest rate of 5%. HEAB provided a total of 35 loans under the program. As of June 30, 2022, one loan has been repaid in full, two are in repayment, and 34 are in the loan forgiveness grace period.

5. Loans for Teachers and Mobility Instructors of Visually Impaired Pupils (HEAB). This program provides loans of up to \$10,000 per year to defray the cost of tuition, fees, and expenses for students enrolled in a degree-granting program that prepares them to be licensed as teachers of visually impaired pupils or as orientation and mobility instructors. A student may receive a maximum of \$40,000 in loans under the program. Loan recipients must be Wisconsin residents who are enrolled at least half-time at an accredited institution of higher education in Wisconsin, Minnesota, Iowa, Illinois, or Michigan. HEAB is required, to the extent possible, to give preference to persons who are likely to return to

Wisconsin to work with visually impaired persons.

Once a borrower completes the degree program, the loans are forgiven if the borrower is licensed and employed as a teacher of visually impaired pupils or as an orientation and mobility instructor by a Wisconsin school district, the Wisconsin Center for the Blind and Visually Impaired, or a cooperative educational service agency. For loan recipients who are employed full-time, HEAB is required to forgive 25% of the principal and interest on the loan for each of the first and second years of employment and 50% of the principal and interest amount for the third year. For persons who are employed less than full-time, HEAB may forgive loans on a prorated basis.

For 2021-22, a total of \$99,000 was expended for 14 students, averaging \$7,071 per student. Participating students were enrolled at Concordia University (7), Northern Illinois University (1) and Western Michigan University (6). Funding for the program is \$99,000 GPR annually.

Scholarship Programs

Generally, scholarships are financial aid funds that are awarded on a basis other than need. Scholarship money may come from a variety of governmental, institutional, and private sources.

1. Academic Excellence Higher Education Scholarships (HEAB). This program provides scholarships to selected 12th grade students who have the highest grade point averages (GPA) in each public, private, and tribal high school in the state. The number of scholarships for which each high school is eligible is based on total student enrollment. One scholarship is awarded to each high school with an enrollment of between 80 and 499 students. If a high school has an enrollment of 500 students or more, scholarships are awarded as follows: 500-999 students, two scholarships; 1,000-1,499, three scholarships; 1,500-1,999, four scholarships; 2,000-2,499, five scholarships; and over

2,500, six scholarships.

The HEAB Secretary may award up to 10 scholarships to students who attend high schools with total enrollments of less than 80 students. The faculty of each of these high schools is required to name the 12th grade student or students with the highest GPAs, as normally calculated by that high school, as eligible to receive a scholarship. Under HEAB administrative rule, the 10 students with the highest GPAs are awarded scholarships. The HEAB Secretary also designates one senior attending the Wisconsin Center for the Blind and Visually Impaired and one senior attending the Wisconsin Educational Services for the Deaf and Hard of Hearing as scholars.

Scholars receive a maximum of \$2,250 per year of which half is funded by the state through a GPR sum sufficient appropriation and half is funded by the institution. Tuition and fees in excess of \$2,250 are the responsibility of the student.

In order to receive a scholarship, a student must be enrolled full-time at a participating UW institution, Wisconsin technical college, or private, nonprofit postsecondary institution in the state by September 30 of the academic year following the year in which the student graduated from high school. If the student who is initially selected does not use the scholarship by September 30 following high school graduation, the scholarship may be awarded to an alternate. Students with the same GPA as the originally designated scholar or, if there are no remaining seniors with the same GPA, students with the next highest GPAs of 3.8 or greater, may be named as alternates. In 2021-22, 150 alternates received scholarships.

For each year the student is enrolled full-time, he or she must maintain a cumulative GPA of at least 3.0 and make satisfactory progress toward a vocational diploma or an associate or bachelor degree. A student may lose and then regain program eligibility as his or her cumulative GPA

Table 10: Academic Excellence Scholars Enrollment by Sector 2021-22

Total	54		
		TOTAL	2,803

fluctuates. No student is eligible for a scholarship for more than four years at a UW or private, nonprofit postsecondary institution or for more than three years at a Wisconsin technical college.

In 2021-22 a total of 2,803 academic excellence scholars were enrolled in Wisconsin post-secondary institutions. The enrolled students represent approximately 86% of the 3,255 available scholarships. HEAB provided a total of \$3,006,017 in scholarships in fiscal year 2021-22. Table 10 shows the institutions where these scholars were enrolled in 2021-22.

2. Technical Excellence Scholarship (HEAB): The technical excellence higher education scholarship program provides scholarships to high school seniors with the highest levels of proficiency in technical education subjects. Similar to the academic excellence scholarship (AES) program, the technical excellence scholarship (TES) program provides scholarships of up to

\$2,250 per year, half of which are funded through a state GPR sum sufficient appropriation and half of which are funded by the technical college in which the student enrolls.

School boards and private and tribal high school governing boards are required to designate scholars by February 25 of each year. School boards and public and tribal high school governing boards are required to develop criteria for determining the level of proficiency in technical education subjects of seniors enrolled in their high schools. Following approval by the HEAB Board, these criteria can be used to designate seniors as scholars or scholarship alternates. The HEAB Secretary is required to develop criteria for determining the level of proficiency in technical education subjects of seniors enrolled in schools with enrollments of fewer than 80 students and of seniors enrolled in the schools for the Deaf and Hard of Hearing and for the Blind and Visually Impaired.

The number of seniors designated as scholars at an individual high school is based on the enrollment of the school using the same scheme used for the AES program. Similarly, the HEAB Secretary may designate up to 10 scholars from seniors nominated by schools with enrollments of less than 80 and one scholar each from the schools for the Deaf and Hard of Hearing and for the Blind and Visually Impaired.

To receive a scholarship, a student who has been designated as a scholar must enroll on a full-time basis in a participating Wisconsin technical college by September 30 of the academic year immediately following the student's senior year of high school. Scholars are eligible to receive the scholarship for up to three years. To remain eligible for the scholarship, a scholar must be enrolled full-time, maintain a grade point average of at least 3.0, and make satisfactory progress towards an associate's or bachelor's degree or a vocational diploma. Scholars do not need to maintain continuous enrollment to remain eligible for the

scholarship.

In 2021-22, 482 freshman technical excellence scholars enrolled in Wisconsin technical colleges. The enrolled students represent approximately 69% of the 700 available scholarships. The total number of available scholarships is based on enrollments in the state's high schools. HEAB provided a total of \$845,860 in scholarships in 2021-22, with 836 students receiving scholarships (scholarships are matched by the institutions). Fox Valley Technical College had the greatest number enrolled (119), with Madison College (102) Northeast Wisconsin Technical College (81), and Waukesha Technical College (71) also having significant numbers of scholars enrolled.

3. Health Services Scholarship (HEAB).

The 2019-21 budget (2019 Act 9), created a scholarship program administered by HEAB to encourage health services professionals to practice in health shortage areas in Wisconsin. The Act required the Board, in consultation with the Department of Health Services, to establish a program for awarding an annual scholarship, including a stipend, for each year of a student's enrollment but not exceeding four years and provided \$800,000 GPR in 2020-21 in a new annual appropriation for this purpose. Under the program, HEAB awards scholarships of \$30,000 each to dentists, primary care physicians, and psychiatrists for each academic year in which they apply and are eligible and \$25,000 each to physician's assistants and nurse practitioners for each academic year in which they apply and are eligible, for a maximum of four years. Scholarship recipients must reapply every year and scholarships are disbursed on a first come, first serve basis. Eligible students are Wisconsin residents who: are currently in a dental, psychiatry, or medical school to become a dentist, primary care physician, or psychiatrist or are in a graduate program to become a physician's assistant or a nurse practitioner; are in their second year of the program or higher; intend to practice in a health shortage area in Wisconsin; and will graduate in 2021 or later. The student is required to

enter into an agreement with HEAB in which the student agrees, upon graduation, to practice in an area which qualifies at the start of the employment as a designated health shortage area in Wisconsin for a period equal to 18 months for each annual scholarship accepted by the student. The agreement specifies that if the scholarship recipient withdraws from their program or fails to practice in a health shortage area in Wisconsin for the required period, he or she must repay to the state a proportional amount of the scholarships awarded to the recipient. In 2021-22, HEAB awarded nine scholarships for a total of \$270,000, including eight dentist scholarships and one primary care physician scholarship.

4. License Plate Scholarships (Department of Transportation (DOT) and UW System). This program is funded with revenues generated by a \$20 annual fee charged to drivers who have a University of Wisconsin specialty license plate. Specialty plates are available for each of the 13 four-year institutions and the revenues generated by each institution's plates are used to fund scholarships awarded by the chancellor. DOT reports that in 2020, 1,043 UW specialty plates were issued. In 2021-22, 91 scholarships totaling \$200,900 were awarded.

5. Sustainable Management Scholarship (UW-Extension). This program provides scholarships to students enrolled in the sustainable management degree program through UW-Extension. In 2021-22, 210 scholarships were awarded totaling \$99,500. This program is funded with income and interest transferred from the normal school fund, which is a segregated fund.

Remissions

Remissions are awarded to students under certain conditions. Students who receive a remission are not charged some portion of tuition and the institution granting the remission forgoes that revenue.

1. Tuition Remissions for Graduate Assistants, Fellows, and Instructional Academic Staff (UW System). Statutes permit the Board of Regents to grant tuition remissions to resident and nonresident graduate students who are employed by the University as assistants or instructional academic staff with appointments of at least 33% and to graduate students who are fellows. In 2021-22, a total of 8,994 graduate assistants, instructional academic staff, and fellows received approximately \$108.8 million in remissions. Of these, 1,850 students were residents who received remissions totaling \$13.6 million. Of graduate students who received remissions under this provision, 83% were enrolled at UW-Madison and 13% attended UW-Milwaukee.

2. UW System Nonresident Tuition Remissions. Current law permits the Board of Regents to remit the nonresident portion of tuition to nonresident undergraduate and graduate students on the basis of merit or if the Board judges that the student is otherwise deserving of relief. In 2021-22, 2,756 nonresident undergraduate students received remissions totaling \$21.8 million and 675 nonresident graduate students received remissions totaling \$2.5 million under these provisions.

3. Athletic Scholarships (UW System). The Regents may remit both resident and nonresident tuition as athletic scholarships. Currently, four UW institutions (Madison, Milwaukee, Green Bay, and Parkside) are in NCAA divisions that allow the granting of athletic scholarships. For 2021-22, these institutions granted remissions totaling \$11.4 million to 869 student athletes. The NCAA allows institutions to divide a scholarship among several athletes for all sports except Division I football, men's and women's basketball, women's gymnastics, women's volleyball, and women's tennis.

4. Tuition Remissions for Veterans (UW System and WTCS). The UW System Board of

Regents and technical college district boards must remit 100% of tuition and fees, less any amount paid under the federal Post-9/11 G.I. Bill, for up to 128 credits or eight semesters, whichever is longer, to eligible veterans. To qualify as a veteran eligible for this remission, a student must be verified by the Department of Veterans Affairs as: (a) being a resident of this state for the purpose of receiving benefits; (b) having been a resident of this state at the time of entry into the armed services or having resided in this state for at least five consecutive years immediately preceding the semester in which the student enrolls; and (c) having qualifying military service. Veterans are required to maintain a cumulative grade point average of at least 2.0 to remain eligible for remissions. In 2021-22, the UW System provided tuition and fee remissions totaling \$10.7 million to 1,681 veterans. Of this amount, \$4.6 million was remitted to veterans enrolled as graduate and professional students. The Wisconsin technical colleges provided remissions totaling \$1.6 million to 694 veterans in that year.

Veterans who are eligible for benefits under the federal Post-9/11 G.I. Bill are required to use those benefits before accessing state tuition and fee remissions. The federal Post-9/11 G.I. Bill provides education benefits, including the direct payment of tuition and fees, a monthly housing allowance, and an annual books and supplies stipend, to veterans who served at least 90 days of active duty (or 30 days in the case of a service-related disability) after September 10, 2001. Students are required to use Post-9/11 G.I. Bill benefits before receiving state tuition and fee remissions even if they are eligible for benefits under the Montgomery G.I. Bill or certain other federal education programs for veterans unless the student is eligible for 12 months or less of benefits under those programs. Under 2011 Act 32, credits that are wholly paid for with Post-9/11 G.I. Bill benefits do not count against the 128 credit limit on state remissions. In cases where Post-9/11 G.I. Bill benefits pay for a fraction of a credit and the remainder is remitted under state law, only the

portion of the credit that is remitted is counted against the 128 credit limit.

Of the 1,681 UW Students and 694 technical college students who received tuition remissions under state statute, Post-9/11 G.I. Bill education benefits paid a portion of tuition and fees for 343 UW students and 210 technical college students. An additional 1,336 UW students and 1,096 technical college students were eligible for remissions under state statute but had their tuition and fees wholly paid with Post-9/11 G.I. Bill benefits. Although these students did not receive remissions through the state program, they were eligible to receive reimbursement/supplemental payments (described below) from the institution attended. The Montgomery G.I. Bill provides a monthly stipend to veterans who are enrolled as students which can be used for tuition, books and supplies, and living expenses. Veterans whose stipend under the Montgomery G.I. Bill or certain other federal education programs would have exceeded the amount of the monthly housing allowance provided under the Post-9/11 G.I. Bill (adjusted to reflect the annual books and supplies stipend) are reimbursed by the institution attended for the difference in those benefits. In 2021-22, the UW System provided reimbursement/supplemental payments totaling \$0.8 million to 187 veterans and the Wisconsin technical colleges provided \$0.5 million to 269 veterans.

In 2021-22, Post-9/11 G.I. Bill tuition and fee payments for veterans to UW institutions totaled \$12.4 million. The technical colleges received \$3.1 million in tuition and fee payments for veterans through the Post-9/11 G.I. Bill in that year.

A GPR appropriation under the Higher Educational Aids Board (HEAB) has been provided to reimburse in part the UW Board of Regents and the Wisconsin technical college district boards for remissions provided to veterans, for remissions provided to the children and spouses of certain veterans (described in the following section), and

for reimbursement/ supplemental payments made to veterans, children, and spouses. In 2021-22, the appropriation was \$6.5 million and the UW Board of Regents received a reimbursement payment of \$5.3 million while the Wisconsin technical college district boards received reimbursements totaling \$1.2 million. This amount fully funded all reimbursement/supplemental payments made directly to veterans and reimbursed the institutions for 16.3% of tuition and fee remissions provided to veterans, children, and spouses. Remissions costs beyond the amount reimbursed through the HEAB appropriation must be absorbed within the UW System's and the Wisconsin technical college district boards' budgets or funded through other revenues such as tuition charged to other students.

5. Tuition Remissions for Children and Spouses of Eligible Veterans (UW System and WTCS). The UW System Board of Regents and each technical college district board must remit 100% of tuition and fees, less any amount paid under the federal Post-9/11 G.I. Bill, to the spouse, unremarried surviving spouse, and children of eligible veterans. An eligible veteran is one who: (1) was a resident at the time of entry into the armed services or resided in this state for at least five consecutive years after he or she attained the age of 18 or five consecutive years immediately preceding the beginning of any semester or session for which the child or spouse seeks a remission (provided the child or spouse also resided in this state for at least five consecutive years immediately preceding enrollment); (2) served under honorable conditions; (3) either died on active duty, died on inactive duty for training purposes, died as the result of a service-related disability, or has been awarded at least a 30% service-related disability rating; and (4) was a resident of this state at the time of death or service-related disability.

Children and spouses may receive remissions for up to 128 credits or eight semesters, whichever is longer. The spouse, in the case of disability, or the unremarried surviving spouse, in the case of death, of an eligible veteran is eligible for this

remission during the first 10 years after the receipt of the disability rating or the death of the eligible veteran or until 10 years after the youngest child the spouse had with the veteran reaches or would have reached 18 years of age. Children of eligible veterans may receive this remission as long as they are at least 17 years of age and not yet 26 years of age, regardless of when the eligible veteran died or received his or her disability rating. Students must maintain a cumulative grade point average of at least 2.0 to remain eligible for remissions.

As with veterans, children and spouses who are eligible for benefits under the federal Post-9/11 G.I. Bill must use those benefits before accessing state tuition and fee remissions. Children and spouses are also eligible for the reimbursement/supplemental payments described in the previous section.

In 2021-22, the UW System provided tuition and fees remissions totaling \$16.9 million to 2,096 students under this provision. In addition, the technical colleges remitted \$2.3 million in tuition and fees to 920 students.

Of the 2,096 UW students and 920 technical college students who received tuition remissions under state statute, 59 UW students and eight technical college students also received education benefits under the Post-9/11 G.I. Bill. An additional 301 UW students and 113 technical college students were eligible for remissions under state statute but had their tuition and fees wholly paid with Post-9/11 G.I. Bill benefits. In 2021-22, Post-9/11 G.I. Bill tuition and fee payments to UW institutions for children and spouses totaled \$3.4 million. The technical colleges received \$0.3 million in tuition and fee payments for children and spouses through the Post-9/11 G.I. Bill in that year.

Table 11 shows the total amount of tuition and fee remissions granted to veterans, children, and spouses, the total amount of reimbursement/supplemental payments made to veterans, children,

Table 11: Tuition and Fee Remissions to Veterans, Children, and Spouses, Supplemental Payments, HEAB Reimbursements, and the Net Cost of Remissions to the Institutions, 2009-10 to 2019-20

	UW Institutions			Wisconsin Technical Colleges

and spouses, HEAB reimbursement payments to institutions, and the net cost of remissions to the UW institutions and Wisconsin technical colleges from 2011-12 to 2021-22. (The net cost of remissions to the institutions is the sum of the remissions and the reimbursement/supplemental payments less the HEAB reimbursement.)

6. Private Institution Grants for Veterans and Dependents. (HEAB). 2019 Act 149 provides \$2,500,000 GPR of annual funding beginning in fiscal year 2020-21 in a new biennial appropriation for private institution grants for veterans and dependents. Under Act 149, HEAB is required to make grants to private institutions, defined as private nonprofit institutions that are members of the Wisconsin Association of Independent Colleges and Universities, in which an eligible student is enrolled to offset the tuition charged by the private institution. Eligible students include veterans, or dependents of a deceased or disabled veteran.

To qualify as an eligible veteran under Act 149, a student must be verified by the Department of Veterans Affairs as: (a) being a resident of this state for the purpose of receiving benefits; (b) having resided in this state for at least five consecutive years immediately preceding the semester in

which the student enrolls at the private institution; and (c) having qualifying military service. Dependents are defined as any of the following of a deceased or disabled veteran: (a) a spouse; (b) an unremarried surviving spouse; or (c) a child, if the child is at least 17 but not yet 26 years of age. Act 149 requires that if a deceased veteran was not a resident of Wisconsin at the time of entry into the service, HEAB may not make a grant under the program for an eligible student who is a dependent of the deceased veteran unless the dependent has resided in the state for at least five consecutive years immediately preceding enrollment in the private institution. Before making a grant for a student for a semester or session, Act 149 specifies that HEAB must require the student to apply to the payment of tuition all educational assistance to which the student is entitled under certain specified federal veteran educational assistance programs.

Under Act 149, students may participate in either the program created under Act 149 or the remissions program from the UW-System or the technical colleges or both, but may not receive more than the longer of 128 credits or eight semesters of tuition assistance in total. The grant provided under the program is the lesser of \$2,000 or

50% of the difference amount of tuition charged by the private institution and the amount of tuition paid for the student under certain specified federal veteran educational assistance programs. The private institution receiving the grant is required to provide an equal match of the amount of the grant from institutional funds, gifts, or grants. In fiscal year 2021-22, HEAB awarded 118 grants for a total of \$371,943, with an average award of \$3,152.

7. Tuition Remissions for Children and Spouses of Certain Protective Services Officers (UW System and WTCS). Current law requires UW and WTCS institutions to grant remission of fees to any resident student who is enrolled in a college parallel program or a program leading to a bachelor's degree, associate degree, or vocational diploma and who is the child or surviving spouse of a correctional officer, fire fighter, law enforcement officer, ambulance driver, or emergency medical services technician who was killed in the line of duty in this state or died as the result of a qualifying disability. In order to be eligible to receive the remission, a child must have been under the age of 21 or not yet born when his or her parent was killed. Fees include tuition, and segregated fees. In 2021-22, the UW System remitted \$35,930 to five students under this provision. In 2021-22 the technical colleges remitted \$867 to one student. In each year, \$14,200 GPR is provided to the WTCS Board to cover the cost of these remissions. Funding for these remissions was rolled into the UW System's GPR general program operations appropriation under 2011 Act 32.

8. Tuition Remissions for Funeral Assistants (UW System and WTCS). A funeral director may issue a tuition voucher in the amount of \$25 to a student who sounds "Taps" during a funeral for which military honors are held. To be eligible for this voucher, the student must be enrolled in grades 6 through 12 or at a post-secondary institution. These tuition vouchers may be used for the payment of tuition at any UW institution or Wisconsin technical college. In

2021-22, four UW students used vouchers totaling \$2,884.

Other Programs

1. College Work-Study (Federal). This is a campus-based program that provides part-time jobs for undergraduate and graduate students. Students may be employed by the institution or public or private employers and must be paid at least the federal minimum wage. In most cases, institutional, public, and private, nonprofit employers must provide at least 25% of the student's salary and private, for-profit employers must provide at least 50% of the student's salary. The remainder of the student's salary is paid by the federal work-study program. Individual institutions may require that employers pay a greater share of the student's salary; by reducing the percentage of the salary paid by the federal work-study program, the institution is able to increase its number of work-study participants. The award amount is based on financial need, availability of funds, and the amount of aid the student receives from other programs. Earnings from work-study jobs are not included in the student's income when reapplying for financial aid in subsequent years. In 2020-21, a total of \$13.7 million was provided to 7,961 students, averaging \$1,725 per student.

2. Wisconsin Educational Opportunity Programs (Public Instruction). The Department of Public Instruction administers a state-funded financial aid program through the Wisconsin Educational Opportunity Program (WEOP). A second financial aid program, the talent incentive program, is administered jointly by HEAB and WEOP and described earlier in this paper. The precollege scholarship program is administered solely by WEOP:

Precollege Scholarship Program. This program provides grants to economically disadvantaged middle school and high school students to cover full student costs of precollege programs, including courses, books, supplies, and room and

board, if necessary. Precollege programs which emphasize academic skills development, career guidance, curriculum enrichment, and financial aid information are offered to eligible students through UW campuses, technical colleges, and private colleges. The student must first be admitted to a precollege program to qualify for a scholarship. In 2020-21, 1,339 middle and high school students received a total of \$1,109,300 to fund their participation in precollege programs statewide.

3. Tuition Assistance for Medical and Dental Students (Medical College of Wisconsin, Marquette Dental School, HEAB). The state provides funding to the Medical College of Wisconsin and the Marquette Dental School to reduce the amount of tuition charged to Wisconsin resident students enrolled at those institutions. Funding for the Medical College of Wisconsin program is provided through an appropriation for the Medical College; funding for the Marquette Dental School program is provided through an appropriation under HEAB. In 2021-22, 526 Wisconsin resident students enrolled in the Medical College of Wisconsin received \$3,662 in tuition assistance for a total of \$1,926,600. In that same year, 200 Wisconsin resident students enrolled in Marquette Dental School received tuition assistance of \$8,665 for a total of \$1,733,000. Statutes specify a maximum number of 200 for dental students who may receive tuition assistance through this program. There is no statutory limit on the number of Medical College of Wisconsin students who may receive tuition assistance.

4. Physician and Dentist and Health Care Provider Loan Assistance Programs (UW System). This program is different from the state-funded loan programs described previously in that the state does not make loans to students through this program. Rather, the state agrees to repay a portion of the participant's existing student loans.

Under the physician and dentist loan assistance program, the UW Board of Regents may repay up

to \$50,000 in education loans on behalf of a physician or dentist who agrees to practice in one or more eligible practice areas or dental health shortage areas in this state. For physicians who additionally agree to practice in a rural area, the UW Board of Regents may make loan repayments of up to \$100,000. Under the health care provider loan assistance program, the Board may repay up to \$25,000 in education loans on behalf of a health care provider, defined as a dental hygienist, physician assistant, nurse midwife, or nurse-practitioner, who agrees to practice in one or more eligible practice areas in this state.

To be eligible for loan repayment, the physician, dentist, or health care provider must enter into a written agreement with the Board in which he or she agrees to practice at least 32 clinic hours per week, 45 weeks per year, for three years in an eligible practice area. Physicians and dentists must also agree to treat patients who are insured by or for whom health benefits are payable under Medicare, medical assistance (MA), or other government programs. Program participants who meet additional requirements may also be eligible for federally-funded loan repayments through the expanded loan assistance program.

Loans to physicians and dentists are repaid as follows: (1) 40% of the principal up to \$20,000 in each of the first and second years; and (2) 20% of the principal up to \$10,000 in the third year. For physicians practicing in rural areas, maximum annual repayments are set at \$40,000 for each of the first and second years and \$20,000 for the third year. Loans to health care providers are similarly repaid as follows: (1) 40% of the principal up to \$10,000 in the each of the first and second years; and (2) 20% of the principal up to \$5,000 in the third year.

Total state funding for the physician and dentist and health care provider loan assistance programs is \$798,700 in 2022-23. Of this amount, \$488,700 is from tribal gaming revenues and \$310,000 is from the critical access hospital

assessment fund. The critical access hospital assessment funds may only be used to make repayments on behalf of physicians practicing in rural areas. In addition, approximately \$300,000 in federal funding is provided annually for the expanded loan assistance program. In 2021-22, 106 awards were provided to 100 health care providers including 27 new awards to 14 physicians, six nurse practitioners, three physician assistants, three dentists, and one dental hygienist.

College Savings Programs

The Department of Financial Institutions (DFI) administers two section 529 college savings plans, Edvest and Tomorrow's Scholar, under advisement of the College Savings Program Board. Both Edvest and Tomorrow's Scholar are available nationwide. These plans represent two of the 104 qualified state tuition plans under Section 529 of the U.S. Internal Revenue Code, designed as a savings vehicle for higher education expenses with certain tax advantages. Wisconsin's plans were initially established by 1999 Act 44.

The College Savings Program Board is comprised of 11 members: (a) the Secretary of DFI (or his or her designee); (b) the President of the University of Wisconsin Board of Regents (or his or her designee); (c) the President of the Wisconsin Association of Independent Colleges and Universities (or his or her designee); (d) the President of the Wisconsin Technical College System (or his or her designee); (e) the Chair of the State Investment Board (or his or her designee); and (f) six public members appointed by the Governor to four-year terms. The Board's responsibilities include the authority to establish investment guidelines for account contributions, promulgate rules to determine whether an account withdrawal is qualified under federal law, and pay distributions to beneficiaries and eligible educational institutions. In 2012, TIAA-CREF Tuition Financing, Inc. (TFI) won the bid as Program Manager for the Wisconsin 529 College Savings Program plans. Today, TFI maintains the Program Management

of the direct-sold Edvest plan and sub-contracts the management of the advisor-sold plan, Tomorrow's Scholar, to Voya Investment Management. Tomorrow's Scholar is available through financial advisors and fee-only financial planners.

Under both savings plans, any person with a valid Social Security number or taxpayer identification number, aged 18 or over, may open an account, and the beneficiary may be any person with a valid Social Security number, including the account owner. Within each owner-beneficiary relationship, multiple investment portfolios are permitted to allow for investment diversification. There is no state residency requirement or income limitation for either savings plan. Under TFI management, Edvest accounts require a minimum initial investment of \$25 per investment portfolio. Under Voya Investment Management, Tomorrow's Scholar accounts require a minimum initial investment of \$250 per investment portfolio (although this minimum contribution may be waived in certain circumstances). The maximum amount that may be contributed to a single beneficiary in aggregate from all sources and plans (including Edvest and Tomorrow's Scholar) is \$527,000, an amount which must be reviewed and adjusted annually by the College Savings Program Board based on a measure of college tuition inflation. Subject to this aggregate maximum contribution limit, there are no limits on annual contributions to accounts.

The beneficiary may use the proceeds of the account at any eligible school (including accredited post-secondary education institutions in the United States, and certain post-secondary institutions abroad). Generally, distributions may be used for a wide range of educational expenses such as tuition and other fees, educational supplies, special needs services, room and board, computers, software, and Internet access services. The federal Tax Cuts and Jobs Act of 2017 (TCJA) expanded this provision to allow distributions, limited to \$10,000 per beneficiary per year, to be used for tuition expenses at public, private,

or religious elementary and secondary schools. State law was amended under 2017 Act 231 to allow distributions under this TCJA provision beginning in tax year 2018. While DFI does not have a separate plan specifically for elementary or secondary school savings programs, account owners can request distributions for elementary or secondary school tuition expenses from the existing college savings plans.

Both plans offer a range of investment choices. The Edvest college savings plan offers 24 portfolio options, including 10 enrollment year portfolio options, eight multi-fund options, five single-fund options, and a principal plus interest portfolio. The Tomorrow's Scholar college savings plan offers 32 portfolio choices, including 18 single-fund options, nine age-based tracks, and five static allocation options. Federal regulations allow investments in an account to be reallocated up to two times per year.

College savings account owners may authorize contributions by any individual to an account. In addition, a state tax deduction is allowed for contributions made by any in-state resident to a Wisconsin-sponsored account, regardless of the claimant's relationship to the beneficiary. For taxable years beginning after December 31, 2013, the base amounts that may be deducted (\$3,000 or \$1,500) increase on an annual basis by a percentage equal to the percentage change in the U.S. city average consumer price index for all urban consumers. For tax year 2022, deductions may be made up to \$3,560 (filing single or joint) or \$1,780 (for a divorced parent or if married and filing separately) per beneficiary. In 2023, the tax-deductible amounts increase to \$3,860 and \$1,930. The deadline to make contributions for a particular tax year is April 15 of the following year, and any contributions in excess of the maximum tax deduction can be carried forward to later taxable years.

Investment earnings and distributions from an account established through a section 529

qualified program, including Wisconsin's Edvest and Tomorrow's Scholar plans, and plans offered by other states or administered by private institutions, are exempt from both federal and Wisconsin income taxes if the withdrawals are used for qualified elementary or secondary tuition expenses, or qualified higher education tuition and related expenses. In addition, federal law permits a refund made by an educational institution of a qualified expense paid from a section 529 account to be re-deposited to the account without a tax penalty, as long as it is redeposited within 60 days.

Investment earnings on the contributions and the contributions may be withdrawn for non-higher education expenses, but would be subject to state and federal taxes and are generally subject to an additional 10% federal tax on the earnings. There are limited exceptions to the 10% federal tax addition, such as in the case of death or disability of the stated beneficiary. Section 529 also allows for the change of beneficiaries to another family member of the previous beneficiary without tax penalty.

The Edvest plan does not charge an annual account fee. Account owners are charged asset-based fees that vary by the underlying investments in the selected portfolios. These fees range from 0.00% to 0.27% annually. In addition, as of December 31, 2022, Edvest assets are charged a program management fee of 0.06% annually (the state administrative fee of 0.10%, which services the costs for administering both savings plans, is waived through October 29, 2023, at which time the College Savings Programs Board will reevaluate the fee).

Under the Tomorrow's Scholar college savings plan, there is a \$25 per year account maintenance fee, which is waived for Wisconsin residents. The fee is also waived if an automatic contribution or payroll deduction plan has been elected or if the account balance is above \$25,000. Asset-based fees on the underlying investments in Tomorrow's Scholar portfolios range from 0.00% to 1.00% on

an annual basis. In addition, a yearly program management fee of 0.08% and a distribution and service fee of 0.25%-1.00% is charged on Class A shares (the default class unit).

Total asset-based fees for the Edvest plan, using mostly passive investments, range from 0.00% to 0.33%. Comparatively, total asset-based fees for the Tomorrow's Scholar plan A shares using a blend of actively-managed and passively-managed investments, range from 0.45% to 1.43%. Total annual asset-based fees for other class share units range from 0.20% to 2.18%. As of July 1, 2022, Edvest had a total of 215,566 direct-sold open accounts with assets of \$4.27 billion, and Tomorrow's Scholar had 163,727 advisor-sold open accounts with assets of \$2.1 billion.

Tax Incentives

1. Employer Tax Credit for College Savings Account Contributions (State). A nonrefundable tax credit can be claimed by employers against the state individual income tax and the corporate income/franchise tax equal to 25% of the amount an employer pays into an employee's section 529 college savings account (described above). The maximum amount of deposit that is eligible for the credit is equal to 25% of the maximum amount an individual employee may deduct. For tax year 2022, an employee's maximum deduction for each beneficiary is \$1,780 if the employee is divorced or married and filing separately or \$3,560 if single or married and filing jointly. The maximum employer contribution eligible for the credit in tax year 2022 is \$445 per beneficiary for an employee who is divorced or married filing separately (\$1,780 x 25%) and \$890 per beneficiary for an employee who is single or married and filing jointly (\$3,560 x 25%). As a result, the maximum credit for the employer's contributions for each employee is \$111 (\$445 x 25%) and \$223 (\$890 x 25%), respectively.

2. Employer-Provided Education Benefits (State and Federal). Taxpayers may exclude

from their taxable income up to \$5,250 in educational assistance benefits received from their employer in tax year 2022. Eligible benefits include payments for tuition, fees, books, supplies, and equipment. Eligible expenses also include principal and interest on qualified student loans paid after March 27, 2020, and before January 1, 2026. Courses do not have to be related to the business of the employer.

3. Higher Education Tax Deduction (State). Since tax year 1998, state law has allowed a deduction from income for tuition expenses. The deduction applies to tuition, including mandatory student fees, paid on behalf of the taxpayer or the taxpayer's dependent child. Allowable tuition expenses include tuition paid to attend any university, college, technical college, or school approved by the education approval program under the Department of Safety and Professional Services that is located in Wisconsin, or to attend an institution under the Minnesota-Wisconsin tuition reciprocity agreement. A student cannot claim a tuition deduction for tuition and fee amounts paid using a distribution from a Wisconsin 529 account.

The maximum tuition deduction equals twice the average amount of resident undergraduate tuition charged by UW System four-year institutions for the most recent fall semester. For tax year 2022, the maximum deduction is \$6,976.

The deduction is phased out based on filing status and federal adjusted gross income (AGI), indexed for inflation. For 2022, the phase-out ranges are as follows: (a) \$60,380 to \$72,460 for single and head-of-household filers; (b) \$96,600 to \$120,760 for married couples filing joint returns; and (c) \$48,300 to \$60,380 for married couples filing separate returns.

4. American Opportunity Tax Credit (Federal). The American Opportunity tax credit is available to individuals who pay qualified post-secondary educational expenses for either

themselves, their spouse, or a dependent and is available for up to four years. Degree-seeking students must be enrolled at least half-time at an eligible educational institution, which typically is any accredited public, nonprofit, or proprietary post-secondary institution. Qualified expenses include tuition, required fees, and course materials less any grants, scholarships, or other tax-free financial assistance.

The tax credit equals 100% of the first \$2,000 and 25% of the second \$2,000 in expenses, resulting in a maximum credit of \$2,500 per student per year. Taxpayers may claim the credit for multiple students in the same year, but only for four years for each student. Up to 40% of the credit is refundable. The credit is phased out for taxpayers with modified AGI (AGI plus certain amounts otherwise excluded or deducted) between \$160,000 and \$180,000 for joint filers, and between \$80,000 and \$90,000 for other filers. The credit is not available to married taxpayers filing separately.

5. Lifetime Learning Tax Credit (Federal). Tax filers may claim a lifetime learning tax credit if they pay qualified tuition and related expenses of higher education for any course of study to acquire or improve job skills for themselves, a spouse, or a dependent. The student may be enrolled less than half-time, and there is no limit on the number of years that the credit may be claimed. The credit is not refundable and equals 20% of the first \$10,000 in qualified tuition and related expenses, but no expenses pertaining to a student for whom an American Opportunity tax credit is claimed are allowed. In 2022, the credit was phased out for taxpayers with modified AGI between \$160,000 and \$180,000 for joint filers, and between \$80,000 and \$90,000 for other filers. The credit is not available to married taxpayers filing separately.

6. Coverdell Education Savings Accounts (State and Federal). Married taxpayers filing joint tax returns and individual filers (including

the beneficiary) may contribute up to \$2,000 per designated beneficiary per year to a Coverdell Education Savings Account (CESA, formerly called an Education IRA). There are no relationship requirements between the contributor and the beneficiary. While contributions are not deductible from income, interest earnings are tax exempt and withdrawals are excluded from the beneficiary's income if used for eligible education expenses. Under coordination rules with other tax deductions and credits for education, qualified expenses for purposes of a CESA are reduced to reflect other education tax benefits taken.

The ability of an individual to make a contribution to a CESA is phased out for contributors with modified AGI between \$95,000 and \$110,000 (between \$190,000 and \$220,000 for joint filers). Funds from a CESA may be used to pay for qualified elementary and secondary education expenses in addition to qualified higher education expenses.

7. IRA Withdrawals (Federal). Early (before age 59½) withdrawals from a traditional IRA are not subject to the 10% tax penalty provided the distributions are used for qualified postsecondary education expenses of the taxpayer, or the taxpayer's spouse, child, or grandchild.

8. Student Loan Interest Deduction (State and Federal). An individual may deduct up to \$2,500 annually for interest paid on student loans during the life of the loan. For tax year 2022, the deduction is phased out for joint filers with modified AGI between \$145,000 and \$175,000, and for other filers with modified AGI between \$70,000 and \$85,000. The deduction is not available to married taxpayers filing separately.

9. Education Savings Bond Exclusion (Federal). Taxpayers who pay qualified education expenses can exclude from taxable income the interest earned on qualified savings bonds. The amount of excludable interest cannot exceed the amount of the taxpayer's qualified education

expenses, reduced by certain other education-related tax benefits received. For tax year 2022, the exclusion phases out for joint filers with modified AGI between \$128,650 and \$158,650, and for other filers with modified AGI between \$85,800 and \$100,800. The exclusion is not available to married taxpayers filing separately.

Financial Aid Package

After a student applies for financial aid, the college attempts to meet as much of a student's need as possible with a financial aid package. Institutional financial aid officers are responsible for packaging a student's financial aid based on the needs analysis. Packaging is the selection of various types and amounts of aid which enable a student to pay for educational costs. Some elements of a financial aid package are automatically included such as Pell Grants, which are determined when EFC is determined by the federal processor, and Wisconsin Grants, which are calculated by HEAB. Funding from other programs such as the Supplemental Educational Opportunity Grant, college work-study, and institutional aid are controlled and distributed by an institution's financial aid office.

The package is developed in a hierarchy. Generally, students are awarded all available grants before any loans, which are less desirable, are added to the package. In 2020-21, grants and scholarships accounted for 62.3% of all financial aid received, loans accounted for 36.3%, and work-study for 1.4%. This ratio varies by the type of institution attended: grants and scholarships account for a larger percentage of the aid at independent colleges than at technical colleges and UW institutions.

Once the financial aid office has compiled the student's financial aid package, the student must

accept or decline the aid provided through each program. A student is not obligated to accept the entire package. For example, a student could accept the grant and work-study aid but refuse the loans. Students must be registered for classes before aid can be issued to them at the beginning of a semester. They are also required to pay their tuition and fees with the proceeds of the aid before the remaining aid can be distributed to them.

Table 12 compares the average cost of attendance, student financial need, and need-based aid awarded by type of institution over the most recent five-year period for which information is available. As shown in the table, the average amount of need-based aid received by students enrolled in UW institutions, Wisconsin technical colleges, and private colleges and universities located in this state has generally increased over the most recent five years. However, there have been significant differences between the three sectors in terms of changes in cost of attendance and students' expected family contributions, which is a measure of their ability to pay.

At UW institutions, cost of attendance increased by \$976 over the time period shown while the average expected family contribution decreased by \$1,010. While the average need-based aid provided increased (by \$646), the decreased family contribution and increased average cost led to an increase in unmet need over the period. Over the same period, the average cost of attending a technical college increased (by \$835) while expected family contribution increased by \$491, and average need-based aid decreased by \$364. As a result, average unmet need for technical college students increased by \$708. At the private, non-profit institutions, both cost of attendance and the average students' expected family contribution increased over the time period shown. However, increases in costs at those institutions were greater than the increase in students' ability to pay and need-based financial aid also decreased, resulting in an increase in unmet need for those students.

Table 12: Financial Aid Data by Institution Type: Resident Undergraduates

	No. of Recipients	Avg. Cost	Avg. Contribution	Avg. Need	Avg. Aid	Unmet Need
UW System						
2014-15	70,871	\$18,732	\$6,678	\$12,054	\$7,604	\$4,450
2015-16	67,278	18,912	7,172	11,740	7,359	4,381
2016-17	62,211	19,152	6,809	12,344	7,757	4,586
2017-18	59,456	19,356	6,170	13,186	7,829	5,357
2018-19	54,890	19,321	5,757	13,564	7,883	5,681
2019-20	49,541	19,692	5,464	14,228	8,461	5,767
2020-21	46,221	19,708	5,668	14,039	8,250	5,790
Technical Colleges						
2014-15	56,054	\$15,281	\$2,392	\$12,889	\$5,494	\$7,395
2015-16	50,243	15,364	2,670	12,694	5,279	7,415
2016-17	46,247	15,487	2,812	12,676	5,469	7,207
2017-18	43,468	16,343	2,857	13,458	5,143	8,342

Interstate Comparisons

Over the last 10 years, the amount of need-based aid provided by states has increased nationwide. State-funded, need-based grant aid increased by 43.5% over that time period, from \$6.5 billion in 2010-11 to \$9.4 billion in 2020-21. Expenditures for state-funded need-based grant programs in Wisconsin remained unchanged from 2010-11 to 2020-21.

Wisconsin is one of 24 states that has one or more merit-based aid programs for undergraduate students. Compared to other states that have merit-based aid programs, Wisconsin spends a relatively small amount on merit-based aid. Expenditures for

the merit-based academic excellence and technical excellence scholarship programs totaled \$3.3 million in 2020-21, or 3.2% of HEAB's total student financial aid expenditures. By comparison, merit-based aid expenditures accounted for an average of 44.9% of all student aid expenditures in the 23 other states that had merit-based aid programs.

The appendix to this paper compares the primary need-based grant programs in each of the 50 states and the District of Columbia. The table highlights the different approaches used by various states in distributing need-based aid. Some states, such as Mississippi, Texas, and Idaho, provide relatively generous grants to a small number of students. Others, such as Maine, Rhode Island, and New Mexico, provide smaller grants to a larger number of students. In comparison to other states, Wisconsin provides slightly smaller grants

to a somewhat larger proportion of students.

When comparing funding for student financial aid across the states, it is important to do so in the context of the tuition policy decisions made by those states. Some states, such as Utah, New Mexico, Louisiana, and Oklahoma, provide low amounts of need-based financial aid but also charge relatively low tuition. These states provide a large higher education subsidy to all students by requiring them to pay a smaller amount of their educational costs through tuition. Other states, such as New Jersey, Illinois, and Pennsylvania, charge high tuition and provide high amounts of need-based financial aid. These states target higher education subsidies to those students who have the greatest financial need. A third group of states, including New York, West Virginia, and North Carolina, offer both low tuition and high amounts of need-based financial aid. When compared to other states, Wisconsin charges moderate amount of tuition and provides a moderate amount of financial aid.

Table 13 compares tuition and fees charged by public flagship universities in Midwestern states

Table 13: Peer Tuition and Fees at Flagship Campuses and Estimated State-Funded Need-Based Undergraduate Aid (2020-21)

	Resident Undergraduate Tuition-Fees	Estimated Need-Based Grant Dollars per FTE*	Need-Based Grants as % of Tuition
Indiana	\$11,221	\$1,127	10.0%
Minnesota	15,027	1,009	6.7
Illinois	16,862	1,106	6.6
Wisconsin	10,742	541	5.0
Iowa	9,606	409	4.3
Michigan	15,948	360	2.3
Ohio	11,518	228	2.0

*Grant dollars per FTE data from National Association of State Student Grant and Aid Programs.

and the estimated state-funded need-based grant aid per undergraduate full-time equivalent (FTE) student in 2020-21. The data shown in Table 13 is different from that shown in the appendix in that it includes all need-based grant aid, as opposed to only the primary need-based grant program. The appendix also shows the average grant amount instead of aid per FTE undergraduate student.

APPENDIX

Summary of the Primary Need-based Grant Program in Each State and the District of Columbia, 2020-21*

	Average Grant Amount	Average Grant as % of Average Tuition and Fees at Public, Four- Year Institutions	Number of Recipients as a % of State Full-Time Equivalent Undergraduate Students
New Jersey	\$6,795	47.1%	23.5%
Mississippi	6,281	72.5	3.6
California	6,002	60.5	22.9
Texas	5,360	49.5	8.2
Iowa	5,050	53.9	6.7
Washington	4,444	41.7	40.3
Indiana	4,093	41.7	12.6
Maryland	3,517	34.7	11.2
Washington, DC	3,482	40.3	0.4
New York	3,300	38.9	26.5
Idaho	3,218	40.3	7.9
Illinois	3,149	21.8	35.1
Virginia	3,034	21.9	21.1
Colorado	2,829	24.6	23.9
Nevada	2,794	33.8	2.1
Minnesota	2,790	23.2	34.8
Connecticut	2,569	18.1	7.1
Pennsylvania	2,497	16.6	26.2
West Virginia	2,474	28.9	17.5
Oregon	2,462	20.7	23.3
North Carolina	2,448	33.7	24.4
Georgia	2,192	24.7	0.1
Alaska	2,169	25.2	20.3
Vermont	2,142	12.1	24.7
Ohio	1,933	16.5	11.8
North Dakota	1,932	20.0	17.2
Kansas	1,862	20.1	7.0
Wisconsin	1,745	19.2	29.6
